Molecular and Cellular Biochemistry:

An International Journal for Chemical Biology in Health and Disease

CONTENTS VOLUME 202, Nos. 1 & 2, December 1999

Y.J. Lee and P.M. Corry: Hypoxia-induced bFGF gene expression is mediated through the JNK signal transduction pathway 1–8

J. Ye, M. Ding, S.S. Leonard, V.A. Robinson, L. Millecchia, X. Zhang, V. Castranova, V. Vallyathan and X. Shi: Vanadata induces apoptosis in epidermal JB6 P+ cells via hydrogen peroxide-mediated reactions 9–17

D. Enns, H. Green, R. Tupling, M. Burnett, S. Grant and D. Ranney: Alterations in sarcoplasmic reticulum function in female vastus lateralis with eccentric exercise 19–30

U. Bandyopadhyay, K. Biswas, D. Bandyopadhyay, C.K. Ganguly and R.K. Banerjee: Dexamethasone makes the gastric mucosa susceptible to ulceration by inhibiting prostaglandin synthetase and peroxidase – two important gastroprotective enzymes 31–36

R.A.K. Srivastava, L. Toth, N. Srivastava, M.E. Hinsdale, N. Maeda, A.B. Cefalu', M. Averna and G. Schonfeld: Regulation of the apolipoprotein B in heterozygous hypobetalipoproteinemic knock-out mice expressing truncated apoB, B81. Low production and enhanced clearance of apoB cause low levels of apoB 37–46

A.B. Elmoselhi and A.K. Grover: Peroxide sensitivity of endothelin responses in coronary artery smooth muscle: ET_A vs. ET_B pathways 47–52

B. Formby and T.S. Wiley: Bcl-2, survivin and variant CD44 v7–v10 are downregulated and p53 is upregulated in breast cancer cells by progesterone: Inhibition of cell growth and induction of apoptosis 53–61

H. Akiyama, S. Kanai, M. Hirano, H. Shimokawa, H. Katano, C. Mukai, S. Nagaoka, S. Morita and Y. Kumei: Expression of PDGF-β receptor, EGF receptor; and receptor adaptor protein Shc in rat osteoblasts during spaceflight 63–71

E. Sentex, A. Laurent, L. Martine, S. Gregoire, L. Rochette and L. Demaison: Calcium- and ADP-magnesium-induced respiratory uncoupling in isolated cardiac mitochondria: Influence of cyclosporin A 73–84

D.J. MacEwan, M.S. Johnson and R. Mitchell: Protein kinase C isoforms in pituitary cells displaying differential sensitivity to phorbol ester 85–90

D.D. Kitts, Y.V. Yuan, A.N. Wijewickreme and L.U. Thompson: Antioxidant activity of the flaxseed lignan secoisolariciresinol diglycoside and its mammalian lignan metabolites enterodiol and enterolactone 91–100

M. Lambert and N.D. Bui: Dexamethasone-induced decrease in HMG-CoA reductase and protein-farnesyl transferase activities does not impair *ras* processing in AR4-2 J cells 101–108

R. Gil and J.M. Seeling: Characterization of *Saccharomyces cerevisiae* strains expressing *ira1* mutant alleles modeled after disease-causing mutations in *NF1* 109–118

S.J. Hemmings and K.B. Storey: Brain γ-glutamyltranspeptidase: Characteristics, development and thyroid hormone dependency of the enzyme in isolated microvessels and neuronal/glial cell plasma membranes 119–130

S. Bhanot, J. Girn, P. Poucheret and J.H. McNeill: Effects of bis(maltolato) oxovanadium (IV) on protein serine kinases in skeletal muscle of streptozotocin-diabetic rats 131–140

N. Vrbjar, I. Bernátová and O. Pecháňová: Changes of sodium and ATP affinities of the cardiac (Na,K)-ATPase during and after nitric oxide deficient hypertension 141–147

M.R. Fantappié, A. Galina, R. Luís de Mendonça, D.R. Furtado, W.E. Secor, D.G. Colley, R. Corrêa-Oliveira, G. Freeman Jr, A.J. Tempone, L. Lannes de Camargo and F.D. Rumjanek: Molecular characterisation of a NADH ubiquinone oxidoreductase subunit 5 from *Schistosoma mansoni* and inhibition of mitochondrial respiratory chain function by testosterone 149–158

N.K. Schiller and D.B. McNamara: Balloon catheter vascular injury of the alloxan-induced diabetic rabbit: The role of insulin-like growth factor-1 159–167

Index to Volume 202 169–171
